Executive Summary

Overview of Our Vision and Mission

- Transforming the EV charging landscape in India
- Meeting the growing demand for electric vehicle infrastructure
- Sustainable and scalable business model

Market Size & Opportunity

The Rapid Growth of Electric Vehicles in India

- Projected market size of USD 15 billion by 2025
- Increase in EV adoption rates driven by government incentives
- Rising consumer awareness and environmental concerns

Our Business Model

Innovative Solutions for EV Charging

- Subscription-based charging services for users
- Partnerships with commercial properties for charging stations
- Revenue from advertising and data analytics services

Competitive Landscape

Identifying Key Competitors

- Overview of leading EV charging companies in India
- Differentiation through technology and customer experience
- Strategic partnerships to enhance market position

Growth Strategy

Path to Market Leadership

- Expand charging network across major urban areas
- Invest in R&D for innovative charging solutions
- Leverage government collaborations for infrastructure development

Financial Projections

Forecasting Growth and Revenue

- Projected revenue growth of 30% annually
- Break-even point expected within 3 years
- Strong margins through operational efficiency

Our Team

Experienced Professionals Driving Innovation

- Diverse backgrounds in technology, finance, and operations
- Proven track record in startup success
- Commitment to sustainability and customer satisfaction

Funding Ask

Investment Opportunity

- Seeking USD 5 million in Series A funding
- Use of funds for expanding infrastructure and technology
- Attractive ROI potential with market expansion

Environmental Impact

Contributing to a Sustainable Future

- Reduction of carbon emissions through EV adoption
- Promotion of green energy initiatives
- Supporting government goals for clean transportation
